

CareCloud

Driving the Future of Healthcare with AI Solutions

Nasdaq Global Market : CCLD, CCLDO

Safe Harbor Statements

- This presentation contains forward-looking statements within the meaning of the federal securities laws. These statements relate to anticipated future events, future results of operations or future financial performance. In some cases, you can identify forward-looking statements by terminology such as “may,” “might,” “will,” “shall,” “should,” “could,” “intends,” “expects,” “plans,” “goals,” “projects,” “anticipates,” “believes,” “seeks,” “estimates,” “forecasts,” “predicts,” “possible,” “potential,” “target,” “approximately,” or “continue” or the negative of these terms or other similar terms and phrases.
- Our operations involve risks and uncertainties, many of which are outside our control, and any one of which, or a combination of which, could materially affect our results of operations and whether the forward-looking statements ultimately prove to be correct. Forward-looking statements in this presentation include, without limitation, statements reflecting management’s expectations for future financial performance and operating expenditures, expected growth, including our ability to continue as a going concern, to raise additional capital and to succeed in our future operations, profitability and business outlook, increased sales and marketing expenses, and the expected results from the integration of our acquisitions.
- Forward-looking statements are only current predictions and are subject to substantial known and unknown risks, uncertainties, and other factors that may cause our (or our industry’s) actual results, levels of activity, performance, or achievements to be materially different from those anticipated by such statements. These factors include our ability to:
 - Manage our growth, including acquiring, partnering with, and effectively integrating the recent acquisitions of Medsphere Systems Corporation, RevNu Medical Management and other acquired businesses into our infrastructure and avoiding legal exposure and liabilities associated with acquired companies and assets;
 - Retain our clients and revenue levels, including effectively migrating new clients and maintaining or growing the revenue levels of our new and existing clients;
 - Maintain operations in Pakistan, Azad Jammu and Kashmir, and Sri Lanka in a manner that continues to enable us to offer competitively priced products and services;
 - Keep pace with a rapidly changing healthcare industry;
 - Consistently achieve and maintain compliance with a myriad of federal, state, foreign, local, payor, and industry requirements, regulations, rules, laws, and contracts;
 - Maintain and protect the privacy of confidential and protected Company, client, and patient information;
 - Develop new technologies, upgrade and adapt legacy and acquired technologies to work with evolving industry standards and third-party software platforms and technologies, and protect and enforce all of these and other intellectual property rights;
 - Attract and retain key officers and employees, and the continued involvement of Mahmud Haq as Executive Chairman, Stephen Snyder as Chief Executive Officer and A. Hadi Chaudhry as Chief Strategy Officer, all of which are critical to our ongoing operations and growing our business;
 - Realize the expected cost savings and benefits from our restructuring activities and structural cost reductions;
 - Comply with covenants contained in our credit agreement with our senior secured lender, Provident Bank, and other future debt facilities;
 - Continue to pay our monthly dividends which were suspended in December 2023 and resumed in February 2025 to the holders of our Series A and Series B preferred stock;
 - Incorporate AI into our products faster and more successfully than our competitors, protecting the privacy of medical records and cybersecurity threats;
 - Compete with other companies developing products and selling services competitive with ours, and who may have greater resources and name recognition than we have;
 - Effectively integrate, manage, and keep our information systems secure and operational in the event of a cyber-attack;
 - Respond to the uncertainty resulting from pandemics, epidemics or other public health emergencies and the impact they may have on our operations, the demand for our services, our projected results of operations, financial performance or other financial metrics or any of the foregoing risks and economic activity in general;
 - Keep and increase market acceptance of our products and services; and
 - Adapt to changes in domestic and foreign business, market, financial, political, and legal conditions
- Although we believe that the expectations reflected in the forward-looking statements contained in this presentation are reasonable, we cannot guarantee future results, levels of activity, performance, or achievements.
- In this presentation, we disclose certain non-GAAP historical and projected financial measures, including adjusted EBITDA and Free Cash Flow . We believe that these non-GAAP financial measures provide useful information to both management and investors by excluding certain items and expenses that are not indicative of our core operating results or do not reflect our normal business operations. Our use of non-GAAP financial measures has certain limitations in that such non-GAAP financial measures may not be directly comparable to those reported by other companies. We seek to compensate for the limitation of our non-GAAP presentation by providing a detailed reconciliation of the non-GAAP financial measures to the most directly comparable U.S. GAAP measures. Investors are encouraged to review the related U.S. GAAP financial measures and the reconciliation of these non-GAAP financial measures to their most directly comparable U.S. GAAP financial measures.
- The statements in this presentation are made as of the date of this presentation, and the Company does not assume any obligations to update the forward-looking statements provided to reflect events that occur or circumstances that exist after the date on which they were made.

CareCloud at-a-Glance

CareCloud empowers healthcare organizations of all sizes with next-generation, AI-powered services and solutions that optimize clinical, financial, and administrative outcomes.

Proven, Established Healthcare IT Leader

- Founded: 2001
- IPO (Nasdaq): 2014
- US workforce: ~400
- Experienced offshore team

Broad, Diversified Customer Base

- 45,000+ healthcare providers
- 250+ hospitals
- 50 states
- 80+ specialties & sub-specialties

Comprehensive AI-Enabled Technology Platform Across the Care Continuum

- Electronic Health Records (EHR)
- Practice Management (PM)
- Revenue Cycle Management (RCM)
- Advanced Analytics

Strong Financials - 2025

- Revenue: \$120.5M
- EPS: \$0.10
- Adjusted EBITDA: \$27.5M

AI-First Operating Model

- 250+ AI professionals
- Clinical, administrative, and RCM automation solutions
- Strong pipeline of AI solutions

Durable Competitive Advantages

- Global workforce with ~10:1 cost efficiency
- Customer acquisition cost at 50% of industry average
- Industry leading, fully integrated platforms for ambulatory and in-patient workflows

Customer Profiles

Small Medical Practices

Global workforce drives cost efficiency and affordability

Large Physicians Groups

Customizable solutions built to integrate with existing systems

Health Systems

Interoperable architecture enabling seamless cross-platform data exchange

Industry Partners

Scalable back-end solutions transform smaller competitors into revenue-generating customers

Our Growth History

25+ Acquisitions to Date (Highlights shown below)

Oct 2016

Acquired
MediGain, LLC

Jul 2018

Acquired Orion
Healthcorp, Inc.

Apr 2019

Acquired Etransmedia
Technology

Jan 2020

Acquired CareCloud Corporation
& expanded our EHR capabilities

Jul 2020

Acquired Meridian Billing
Management Co. and added
world-class BI and RPA solutions

Jun 2021

Acquired MedMatica Consulting
Associates, Inc. & Santa Rosa Staffing
& expanded solutions to hospitals

Aug 2025

Acquired Medsphere Systems
Corporation, expanding into the
hospital IT market

Oct 2025

Acquired MapApp to expand AI-
driven benchmarking

Our Acquisition Strategy

A disciplined, financially sound acquisition model
that drives scalable, profitable growth

Target Companies

- At or near break-even
- Recurring revenue base
- Low operational risk

Attractive Valuations

- Purchase price < 1x revenue
- Near-term accretive
- Strong customer base

Rapid Margin Expansion

- Target ~30% margins within 3 quarters
- Reduce operating expenses
- Deploy CareCloud technology
- Improve efficiency & scalability

Our Recent Acquisition

Expands CareCloud's reach into inpatient EHR and RCM, strengthening solutions for small and mid-sized hospitals

About Medsphere:

23-year healthcare IT innovator, serving 600+ clients across all 50 states

Core Offerings:

- **CareVue:** Integrated inpatient EHR
- **RCM Cloud:** Cloud-based revenue cycle management
- **Wellsoft:** Emergency Department Information System (EDIS)
- **ChartLogic:** Ambulatory EHR & practice management
- **HealthLine:** Supply chain & inventory management
- **Phoenix & System:** IT managed services
- **Marketware:** Physician relationship & referral analytics platform

Creates a next-generation platform that blends Medsphere's proven technology with CareCloud's AI and innovation-affordable, scalable, and designed to modernize underserved hospitals

Technology Platforms Across the Care Continuum

talkEHR™
Small-Medium Practices

CareCloud
Medium-Large Ambulatory Enterprises

Medsphere
Hospitals & Health Systems (Inpatient)

Redefining the next generation of technology-enabled AI-powered solutions

Technology-Enabled RCM

- Revenue Cycle Management
- Medical Coding
- Provider Credentialing
- AI-driven Denial Management
- AI-driven Appeals
- Interoperability

Cloud Based Software

- Electronic Health Records
- Practice Management
- Physician Relationship Management
- Patient Experience Management
- Business Intelligence
- Customized Cloud Application

Artificial Intelligence & Digital Health

- AI Scribe
- AI Call Audit & Monitoring
- AI Front Desk Agent
- Chronic Care Management
- Remote Patient Monitoring
- Telemedicine Solutions

HIT Consulting & Staffing

- Workforce Augmentation
- IT Transformation Consulting
- Strategic Advisory Services
- Hospital RCM Optimization
- Activation as a Service

Additional Provider Services

- Release of Information
- Group Purchasing Organization
- Professional Services
- Clearinghouse
- Printing and Mailing

AI Across the Care Continuum

Three connected AI pillars that streamline operations, elevate care, and accelerate revenue

AI Clinical Solutions

AI supports providers end-to-end, from pre-visit prep to ambient documentation, smart coding support and auto-generated notes synced to the EHR

AI Admin Workflow Solutions

24/7 AI-powered support system built for practice admins to handle calls, appointments, refills, lab results, referrals, reminders, and routine requests, reducing front-desk work load and no-shows

AI RCM Solutions

An AI-powered revenue cycle suite that automates claims and billing workflows, prevents denials, boosts coding accuracy, accelerates payments, and improves cash flow

AI Clinical Solutions

AI supports providers end-to-end, from pre-visit prep to ambient documentation, smart coding support, and auto-generated notes synced to the EHR

Our clinical AI solutions enable pre-visit readiness by carrying forward key patient data and highlighting clinical gaps or needed follow-ups

During the encounter, ambient AI scribing captures the conversation in real time, including multilingual support for diverse patient populations

Providers are supported with efficiency features such as in-workflow ICD-10/CPT/A&P suggestions to improve accuracy at the point of care

Multimodal capture allows inputs such as images and documents to be incorporated into the clinical record seamlessly

Post-visit, these capabilities generate complete SOAP notes and patient-friendly summaries, sync outputs to the EHR, and offer searchable transcripts, compliance audit trails, and performance dashboards to elevate speed and documentation quality

AI Admin Workflow Solutions

24/7 AI-powered support system built for practice admins to handle calls, appointments, refills, lab results, referrals, reminders, and routine requests, reducing front-desk work load and no-shows

24/7 AI solutions designed for admin and desk teams to manage high-volume patient communication without delays

Instantly handles inbound calls and routine requests such as appointments, reschedules, refills, results, referrals, callbacks, and general questions

Communicates naturally in multiple languages to serve diverse patient populations

Captures patient context, documents every interaction, and securely syncs updates to the EHR for end-to-end task completion

Reduces front-desk burden, speeds confirmations, reduces missed calls/no-shows, and helps retain revenue across the full admin workflow

AI RCM Solutions

An AI-powered revenue cycle suite that automates claims and billing workflows, prevents denials, boosts coding accuracy, accelerates payments, and improves cash flow

A connected AI suite that supports every step of the claims journey, i.e charge capture/ superbills from submission to payment

AI safeguards reduce denials up front with coding and E&M guidance that improves first-pass accuracy and learns from denial patterns

Payment workflows are accelerated with intelligent auto-posting and integrated denial management supported by AI-based analytics

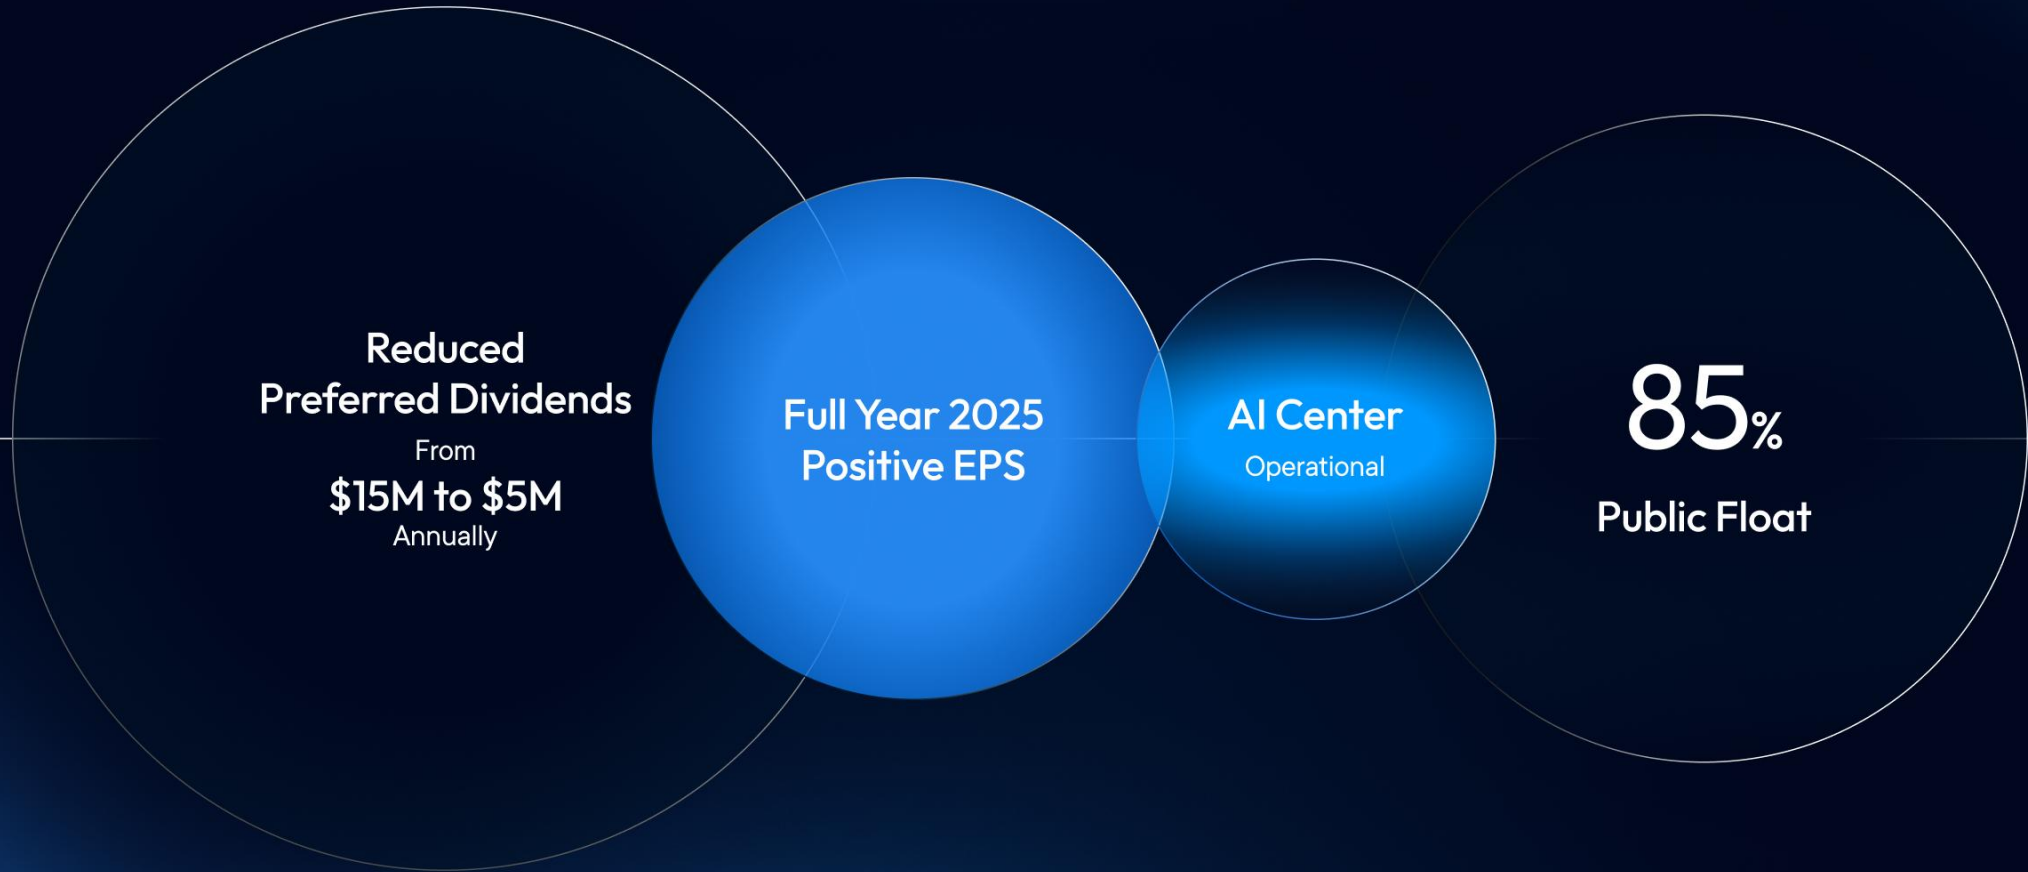

Ongoing claim follow-ups, appeals management, and prior authorizations are streamlined through AI-enabled workflows

Fee schedule optimization and data-driven insights that lift reimbursements, strengthen cash flow, and improve ROI
